Statement of Directors' Responsibility and Approval by the Board of Directors

for the year ended 31 December 2008

The directors are responsible for the preparation and maintenance of adequate accounting records, integrity and fair presentation of the company and group annual financial statements and related financial information included in this report.

The annual financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The directors consider that in preparing the financial statements they have used the most appropriate accounting policies, consistently applied and supported by reasonable and prudent judgements and estimates. The directors are satisfied that the information contained in the financial statements fairly presents the results of operations for the year, and the financial position of the company and the group at 31 December 2008.

For the directors to discharge their responsibilities, management has developed, and continues to maintain, a system of internal financial control, which is well documented and regularly reviewed.

The directors, supported by the Audit committee, are of the opinion, based on the information and explanations given by management, that the group's internal accounting controls are adequate, so that the financial records may be relied upon for preparing the financial statements and maintaining accountability for assets and liabilities. The directors believe that the group's assets are protected and used as intended in all material respects with appropriate authorisation. Nothing has come to the attention of the directors to indicate that any material breakdown in the functioning of these controls, procedures and systems occurred during the financial year.

The financial statements have been prepared on the going concern basis, since the directors have no reason to believe that the group will not be a going concern in the foreseeable future based on forecast and available cash resources.

The group's external auditors, PricewaterhouseCoopers Inc., audited the financial statements, and their report is presented on page 35.

The financial statements set out on pages 36 to 76 have been approved by the board of directors on 9 March 2009, and are signed on its behalf by:

JB Magwaza
Non-executive Chairman

Johannesburg

EHT Pan
Chief Executive Officer

Johannesburg

Certificate by the Company Secretary

for the year ended 31 December 2008

I hereby certify that in respect of the year ended 31 December 2008, the company has lodged with the Registrar all such returns as are required of a public company in terms of section 268 G (d) of the Companies Act of 1973 as amended and that all such returns are true, correct and up to date.

WT Green
Company Secretary

Johannesburg
9 March 2009

Independent Auditor's Report

To the members of

SOUTH OCEAN HOLDINGS LIMITED

We have audited the group annual financial statements and annual financial statements of South Ocean Holdings Limited, which comprise the consolidated and separate balance sheets as at 31 December 2008, the consolidated and separate income statements, the consolidated and separate statements of changes in equity and the consolidated and separate cash flow statements for the year then ended, and a summary of significant accounting policies and other explanatory notes, and the directors' report as set out on pages 36 to 76.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The company's directors are responsible for the preparation and fair presentation of these financial statements, in accordance with International Financial Reporting Standards, and in the manner required by the Companies Act of South Africa. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used, and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements present fairly, in all material respects, the consolidated and separate financial position of South Ocean Holdings Limited as at 31 December 2008, and its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended, in accordance with International Financial Reporting Standards, and in the manner required by the Companies Act of South Africa.

Directors' Report

for the year ended 31 December 2008

The directors have pleasure in presenting their second report on the activities of the company and the group.

GENERAL REVIEW

South Ocean Holdings Limited is the holding company of a group of three operating subsidiary companies: South Ocean Electric Wire Company (Proprietary) Limited, an electrical cable manufacturing company, Radiant Group (Proprietary) Limited, an importer and distributor of light fittings, lamps and electrical accessories and Anchor Park Investments 48 (Proprietary) Limited, a property investment company.

FINANCIAL POSITION

The financial position, results of operations and cash flows of the company and the group are adequately reflected in the attached financial statements. The group results are not comparable to the prior year as Radiant was consolidated for five months in the 2007 figures, as it was acquired with effect from August 2007. The comparative figures for the company are for the period 26 January 2007 to 31 December 2007.

SHARE CAPITAL

No shares were issued during the year under review (2007: 156 378 794). Details of the authorised and issued share capital and premium are stated in note 10.

SPECIAL RESOLUTIONS

At the annual general meeting of the company held on 25 June 2008, shareholders approved the following special resolutions:

- that the company change its main business and main object in its Memorandum of Association to "holding of investments and all matters related thereto";
- that the company adopts new Articles of Association; and
- to grant the company general authority to repurchase its own shares.

DIVIDENDS

An interim dividend of 7 cents per share was declared on 13 August 2008.

Due to the cash flow constraints the directors have agreed not to recommend a final dividend.

DIRECTORS

The directors of the company during the year were:

Independent non-executive

JB Magwaza *(Chairman)*
EG Dube
KH Pon
JL Law (Appointed 6 March 2009)

Non-executive

CH Pan#
HL Li# (Alternate, Appointed 13 March 2008)
CY Wu#
D Ko# (Resigned 6 March 2009)

Executive

EHT Pan* *(Chief Executive Officer)*
JP Bekker *(Chief Financial Officer)*
PJM Ferreira
G Stein
H Schwartz

Taiwanese
* *Brazilian*

Directors' Report

for the year ended 31 December 2008 *(continued)*

SECRETARY

The secretary of the company is WT Green, whose business and postal addresses are as follows:

Business address	*Postal address*
21 West Street	PO Box 123738
Houghton	Alrode
2198	1451

INTEREST IN SUBSIDIARIES

Details of the company's financial interest in its subsidiaries are set out in notes 4, 27 and 28 to the financial statements.

DIRECTORS' INTERESTS IN SHARE CAPITAL

The interests of directors in the issued share capital of the company as at 31 December 2008 are as follows:

	Number of ordinary shares			**Percentage of issued share capital**
2008	**Direct beneficial**	**Indirect beneficial**	**Total**	**%**
Director				
JP Bekker	**491 807**	**–**	**491 807**	**0,31**

	8 907 767	41 980 555	50 888 322	32,53

Messrs CH Pan, CY Wu and HL Li are employees of Hong-Tai Electrical Industrial Co. Limited, which owns 18,72% of the ordinary shares.

EVENTS AFTER THE BALANCE SHEET DATE

The directors are not aware of any other matter or circumstance arising since the end of the financial year, not otherwise dealt with in the financial statements, which would affect the operations of the company and the group or the results of those operations significantly.

AUDITORS

PricewaterhouseCoopers Incorporated will continue in office in accordance with Section 270 (2) of the Companies Act of South Africa, 1973, as amended.

BASIS OF PREPARATION

These consolidated financial statements of South Ocean Holdings Limited have been prepared in accordance with International Financial Reporting Standards and the Companies Act of South Africa. They have been prepared in accordance with those IFRS standards and IFRIC interpretations issued and effective or issued and early adopted as at the time of preparing these statements.

Principal accounting policies set out below have been consistently applied to all the years presented. The consolidated financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

IFRS 3 requires that an entity formed to issue equity instruments to effect a business combination cannot be identified as the acquirer and therefore the operating entity has been identified as the acquirer. As a result, the principle of reverse acquisition has been applied to the transaction. The principle has been applied in the preparation of the group financial statements. The carrying value of assets and liabilities of South Ocean Electric Wire Company (Proprietary) Limited, the operating company, at the pre-combination date have been used as those of the group.

STANDARDS, AMENDMENTS AND INTERPRETATIONS TO EXISTING STANDARDS EFFECTIVE IN 2008

The following interpretations to existing standards have been published and are mandatory for the group's accounting periods beginning on or after 1 January 2009 or later periods but are not relevant for the group's operations:

- IFRIC 11, 'IFRS 2 – Group and treasury share transactions' (effective from 11 March 2007).
- IFRIC 12, 'Service concession arrangements' (effective from 1 January 2008).
- IFRIC 14, 'IAS 19 – The limit on a defined benefit asset, minimum funding requirements and their interaction' (effective from 1 January 2008).

STANDARDS, AMENDMENTS AND INTERPRETATIONS TO EXISTING STANDARDS THAT ARE NOT YET EFFECTIVE

The following standards and amendments to existing standards have been published and are mandatory for the group's accounting periods beginning on or after 1 January 2009 or later periods, but the group has not early adopted them:

- IFRS 8, 'Operating segments', (effective from 1 January 2009). IFRS 8 replaces IAS 14, 'Segment reporting', and aligns segment reporting with the requirements of the US standard SFAS 131, 'Disclosures about segments of an enterprise and related information'. The new standard requires a 'management approach', under which segment information is presented on the same basis as that used for internal reporting purposes. The group will apply IFRS 8 from 1 January 2009. The impact is still being assessed in detail by management.
- IAS 23 (Amendment), 'Borrowing costs' (effective from 1 January 2009). The amendment requires an entity to capitalise borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset (one that takes a substantial period of time to get ready for use or sale) as part of the cost of that asset. The option of immediately expensing those borrowing costs will be removed. The group will apply IAS 23 (Amendment) retrospectively from 1 January 2009 but it is currently not applicable to the group as there are no qualifying assets.
- IAS 1 (Revised), 'Presentation of financial statements' (effective from 1 January 2009). The revised standard will prohibit the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity, requiring 'non-owner changes in equity' to be presented separately from owner changes in equity. All non-owner changes in equity will be required to be additional to the current requirement to present balance sheets at the end of the current period and comparative period. The group will apply IAS 1 (Revised) from 1 January 2009. It is likely that both the income statement and statement of comprehensive income will be presented as performance statements.
- IFRS 1 (Amendment), 'First time adoption of IFRS' and IAS 27, 'Consolidated and separate financial statements' (effective from 1 January 2009). The amended standard allows first-time adopters to use a deemed cost of either fair value or the carrying amount under previous accounting practice to measure the initial cost of investments in subsidiaries, jointly controlled entities and associates in the separate financial statements. The amendment also

removes the definition of the cost method from IAS 27 and replaces it with a requirement to present dividends as income in the separate financial statements of the investor. The group will apply IFRS 1 (Amendment) from 1 January 2009. The amendment will not have any impact on the group's financial statements.

- IAS 27 (Revised), 'Consolidated and separate financial statements' (effective from 1 July 2009). The revised standard requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is re-measured to fair value and a gain or loss is recognised in profit or loss. The group will apply IAS 27 (Revised) prospectively to transactions with non-controlling interests from 1 January 2010.
- IFRS 3 (Revised), 'Business combinations' (effective from 1 July 2009). The revised standard continues to apply the acquisition method to business combinations, with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently re-measured through the income statement. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair vale or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs should be expensed. The group will apply IFRS 3 (Revised) prospectively to all business combinations from 1 January 2010.
- IFRS 5 (Amendment), 'Non-current assets held for sale and discontinued operations' (and consequential amendment to IFRS 1, 'First-time adoption') (effective from 1 July 2009). The amendment clarifies that all of a subsidiary's assets and liabilities are classified as held for sale if a partial disposal sale plan results in loss of control, and relevant disclosure should be made for this subsidiary if the definition of a discontinued operation is met. A consequential amendment to IFRS 1 states that these amendments are applied prospectively from the date of transition to IFRS. The group will apply the IFRS 5 (Amendment) prospectively to all partial disposals of subsidiaries from 1 January 2010.
- IAS 23 (Amendment), 'Borrowing costs' (effective from 1 January 2009). The definition of borrowing costs has been amended so that interest expense is calculated using the effective interest method defined in IAS 39, 'Financial instruments: Recognition and measurement'. This eliminates the inconsistency of terms between IAS 39 and IAS 23. The group will apply the IAS 23 (Amendment) prospectively to the capitalisation of borrowing costs on qualifying assets from 1 January 2009.
- IAS 36 (Amendment), 'Impairment of assets' (effective from 1 January 2009). Where fair value less costs to sell is calculated on the basis of discounted cash flows, disclosures equivalent to those for value-in-use calculation should be made. The group will apply the IAS 28 (Amendment) and provide the required disclosure where applicable for impairment tests from 1 January 2009.
- IAS 19 (Amendment), 'Employee benefits' (effective from 1 January 2009).
  The amendment clarifies that:
  - A plan amendment that results in a change in the extent to which benefit promises are affected by future salary increases is a curtailment, while an amendment that changes benefits attributable to past service gives rise to a negative past service cost if it results in a reduction in the present value of the defined benefit obligation. The definition of return on plan assets has been amended to state that plan administration costs are deducted in the calculation of return on plan assets only to the extent that such costs have been excluded from measurement of the defined benefit obligation.
  - The distinction between short-term and long-term employee benefits will be based on whether benefits are due to be settled within or after 12 months of employee service being rendered.
  - IAS 37, 'Provisions, contingent liabilities and contingent assets' requires contingent liabilities to be disclosed, not recognised. IAS 19 has been amended to be consistent. The group will apply the IAS 19 (Amendment) from 1 January 2009.
- IAS 39 (Amendment), 'Financial instruments: Recognition and measurement' (effective from 1 January 2009).
  - This amendment clarifies that it is possible for there to be movements into and out of the fair value through profit or loss category where a derivative commences or ceases to qualify as a hedging instrument in cash flow or net investment hedge.
  - The definition of financial asset or financial liability at fair value through profit or loss as it relates to items that are held for trading is also amended. This clarifies that a financial asset or liability that is part of a portfolio of financial instruments managed together with evidence of an actual recent pattern of short-term profit-taking is included in such a portfolio on initial recognition.

  - The current guidance on designating and documenting hedges states that a hedging instrument needs to involve a party external to the reporting entity and cites a segment as an example of a reporting entity. This means that in order for hedge accounting to be applied at segment level, the requirements for hedge accounting are currently required to be met by the applicable segment. The amendment removes this requirement so that IAS 39 is consistent with IFRS 8, 'Operating segments', which requires disclosure for segments to be based on information reported to the chief operating decision maker.
  - When re-measuring the carrying amount of a debt instrument on cessation of fair value hedge accounting, the amendment clarifies that a revised effective interest rate (calculated at the date fair value hedge accounting ceases) is used.

  The group will apply the IAS 39 (Amendment) from 1 January 2009. It is not expected to have an impact on the group's income statement.
- IAS 1 (Amendment), 'Presentation of financial statements' (effective from 1 January 2009). The amendment clarifies that some rather than all financial assets and liabilities classified as held for trading in accordance with IAS 39, 'Financial instruments: Recognition and measurement' are examples of current assets and liabilities respectively. The group will apply the IAS 39 (Amendment) from 1 January 2009. It is not expected to have an impact on the group's financial statements.
- There are a number of minor amendments to IFRS 7, 'Financial instruments: Disclosures', IAS 8, 'Accounting policies, changes in accounting estimates and errors', IAS 10, 'Events after the reporting period', IAS 18, 'Revenue' and IAS 34, 'Interim financial reporting', which are part of the IASB's annual improvements project published in May 2008 (not addressed above). These amendments are unlikely to have an impact on the group's accounts and have therefore not been analysed in detail.

STANDARDS, AMENDMENTS AND INTERPRETATIONS TO EXISTING STANDARDS THAT ARE NOT YET EFFECTIVE AND ARE NOT RELEVANT

The following interpretations and amendments to existing standards have been published and are mandatory for the group's accounting periods beginning on or after 1 January 2009 or later periods, but are not relevant for the group's operations:

- IFRIC 13, 'Customer loyalty programmes' (effective from 1 July 2008). IFRIC 13 is not relevant to the group's operations because none of the group's companies operate any loyalty programmes.
- IFRIC 15, 'Agreements for construction of real estate' (effective from 1 January 2009). IFRIC 15 is not relevant to the group's operations as all revenue transactions are accounted for under IAS 18, 'Revenue' and not IAS 11, 'Construction contracts'.
- IFRIC 16, 'Hedges of a net investment in a foreign operation' (effective from 1 October 2008). IFRIC 16 will not have an impact on the group's operations, because the group does not have any investments in foreign operations.
- IFRS 2 (Amendment), 'Share-based payment' (effective from 1 January 2009). IFRS 2 will not have an impact on the group's operations because the group does not operate a share-based payment scheme.
- IAS 32 (Amendment), 'Financial instruments: Presentation', and IAS 1 (Amendment), 'Presentation of financial statements – Puttable financial instruments and obligations arising on liquidation' (effective from 1 January 2009). The amended standards will not have an impact on the group's operations because the group does not have any puttable financial arrangements.
- IAS 28 (Amendment), 'Investments in associates' (and consequential amendments to IAS 32, 'Financial instruments: Presentation' and IFRS 7, 'Financial instruments: Disclosures') (effective from 1 January 2009). IAS 28 (Amendment) will not have an impact on the group's operations because the group does not have any investments in associates.
- IAS 38 (Amendment), 'Intangible assets' (effective from 1 January 2009). A prepayment may only be recognised in the event that payment has been made in advance of obtaining right of access to goods or receipt of services. IAS 38 (Amendment) will not have an impact on the group's operations because the group does not purchase intangible assets.
- IAS 16 (Amendment), 'Property, plant and equipment' (and consequential amendment to IAS 7, 'Statement of cash flows') (effective from 1 January 2009). The amendment will not have an impact on the group's operations because none of the group's ordinary activities comprise renting and subsequently selling assets.
- IAS 27 (Amendment), 'Consolidated and separate financial statements' (effective from 1 January 2009). The amendment will not have an impact on the group's operations because it is the group's policy for an investment in subsidiary to be recorded at cost in the standalone accounts of each entity.

- IAS 28 (Amendment), 'Investments in associates' (and consequential amendments to IAS 32, 'Financial instruments: Presentation' and IFRS 7, 'Financial instruments: Disclosures') (effective from 1 January 2009). The amendment will not have an impact on the group's operations because the group does not have any investments in associates.
- IAS 29 (Amendment), 'Financial reporting in hyperinflationary economies' (effective from 1 January 2009). The amendment will not have an impact on the group's operations, as none of the group's subsidiaries or associates operate in hyperinflationary economies.
- IAS 31 (Amendment), 'Interests in joint ventures (and consequential amendments to IAS 32 and IFRS 7) (effective from 1 January 2009). The amendment will not have an impact on the group's operations as there are no interests held in joint ventures.
- IAS 38 (Amendment), 'Intangible assets' (effective from 1 January 2009). The amendment will not currently have an impact on the group's operations as all intangible assets are amortised using the straight-line method.
- IAS 40 (Amendment), 'Investment property' (and consequential amendments to IAS 16) (effective from 1 January 2009). The amendment will not have an impact on the group's operations, as there are no investment properties held by the group.
- IAS 41 (Amendment), 'Agriculture' (effective from 1 January 2009). The amendment will not have an impact on the group's operations as no agricultural activities are undertaken.
- IAS 20 (Amendment), 'Accounting for government grants and disclosure of government assistance' (effective from 1 January 2009). The amendment will not have an impact on the group's operations as there are no loans received or other grants from the government.
- The minor amendments to IAS 20 'Accounting for government grants and disclosure of government assistance' and IAS 29, 'Financial reporting in hyperinflationary economies', IAS 40, 'Investment property' and IAS 41, 'Agriculture'. These amendments will not have an impact on the group's operations as described above.

BASIS OF CONSOLIDATION

Subsidiaries are all entities (including special purpose entities) over which the group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Accounting policies have been changed, where necessary, to ensure consistency with the policies adopted by the group.

The purchase method of accounting is used for the acquisition of subsidiaries by the group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of acquisition, plus the costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in the business combination are measured initially at their fair values at acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statement.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated but considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

INTANGIBLE ASSETS

(a) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the group's share of the net identifiable assets of the subsidiary acquired at the date of acquisition. Goodwill is included in intangible assets, and is tested annually for impairment, and carried at cost less accumulated impairment/losses. Impairment losses on goodwill are not reversed. Gains or losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purposes of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

(b) Trade names and customer relationships

Acquired tradenames and customer relationships are shown at historical cost, have a finite life, and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of these assets over their useful lives, as follows:

Customer relationships	5 years
Trade names	20 years

Intangible assets with finite useful lives are tested for impairment if conditions are identified which might be indicative of a potential reduction in the value in use or fair value less cost to sell compared to its carrying value.

(c) Computer software and licences

Acquired computer software and licences are capitalised on the basis of costs incurred to acquire and bring into use the specific software. These costs are amortised over the estimated useful life of the licence, usually three years. Costs associated with developing or maintaining computer software programs are recognised as an expense as incurred. Internal expenditure associated with developing or maintaining computer software programs is charged to income in the year in which it is incurred.

SEGMENT REPORTING

The group's primary reporting format is business segments, and its secondary format is geographical segments. A business segment is a group of assets and operations that are subject to risks and returns that are different from other business segments. A geographical segment is engaged in providing products within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

INTERESTS IN SUBSIDIARIES

Interests in subsidiaries are classified as non-current assets, and are stated in the financial statements of the company at cost, less appropriate impairments. Where the value of investments is considered to be below the carrying value and the diminution of value is considered not to be of a temporary nature, the investments are written down to the expected realisable value.

FOREIGN CURRENCY TRANSLATION

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the group operates (the functional currency). The financial statements are presented in South African Rands, which is the group's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group, and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Buildings	50 years
Plant and machinery	3-20 years
Furniture and equipment	3-10 years
Motor vehicles	5-7 years

Land is not depreciated.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement.

IMPAIRMENT OF NON-FINANCIAL ASSETS

Assets that have an indefinite useful life are not subject to amortisation, and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Impairment losses are recognised as an expense immediately, and are recorded in the income statement, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under the standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed that carrying amount that would have been determined had no impairment loss been recognised for the asset or cash-generating unit in prior years. Financial assets previously impaired are reviewed for probable reversal of the impairment. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation increase under the standard.

FINANCIAL ASSETS

The group classifies its financial assets in the following categories: at fair value through profit or loss, available-for-sale and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date.

(a) Financial assets at fair value through profit or loss

This category has two sub-categories: "financial assets held for trading" and those "designated at fair value through profit or loss" at inception. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Derivatives are also categorised as "held for trading" unless they are designated as hedges. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within twelve months of the balance sheet date.

(b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than twelve months after the balance sheet date. These are classified as non-current assets. Loans and receivables are classified as "trade and other receivables" (note 8), "interest free loans receivable" (note 6) and "cash resources" and "bank overdraft" (note 9.1). Loans and receivables are initially recognised at cost, and are subsequently carried at amortised cost using the effective interest rate method. Any adjustments to the carrying value of originated loans and receivables to amortised cost are calculated by reference to market rates using the effective interest rate method.

(c) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any other category. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date.

Purchases and sales for financial assets are recognised on the trade date, the date on which the group commits to purchase or sell the assets.

Available-for-sale financial assets are measured at cost, and are subsequently carried at fair value, except for investments, where there is not a quoted price in an active market and whose fair value cannot be reliably measured, are subsequently carried at cost.

(d) Impairment

The group assesses at each balance sheet date whether there is objective evidence that a financial asset is impaired. If any such evidence exists, the recoverable amount is estimated, and an impairment loss is recognised. A financial asset is impaired if its carrying amount is greater than its estimated recoverable amount.

FINANCIAL INSTRUMENTS

Financial instruments are initially recognised when the group becomes a party to contractual arrangements. Financial instruments are initially recognised at the fair value (including transaction costs) of the consideration given (in the case of an asset) or received (in the case of a liability). Where the group can legally do so, and the group intends to settle on a net basis, all related positive and negative values of financial instruments are offset within the balance sheet totals.

The group uses derivative financial instruments to manage its exposure to foreign exchange risks arising from operational activities.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into, and are subsequently re-measured at their fair value. The method of recognising the resulting gain or loss is dependent on the nature of the item being hedged. The group designates certain derivatives as (a) a hedge of the fair value of a recognised asset or liability (fair value hedge) or (b) a hedge of a forecasted transaction of a firm commitment (cash flow hedge).

(a) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, along with any changes in the fair value of the hedged assets or liability that are attributable to the hedged risk.

(b) Cash flow hedge

Changes in the fair value of derivatives that are designated and qualify as cash flow hedges that are highly effective, are recognised in equity. Changes in the fair value of any derivative instruments that do not qualify for hedge accounting under IAS 39 are recognised immediately in the income statement. The group does not apply hedge accounting to cash flow hedges.

The fair value of forward exchange contracts is determined using forward exchange market rates at the balance sheet date.

In assessing the fair value of financial instruments the company uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Techniques, such as estimated discounted cash flows, are used to determine fair value for these financial instruments. The nominal value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of non-current financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments.

INVENTORIES

Inventories are valued at the lower of cost or net realisable value. Cost is determined on the following basis:

- raw materials – on an average cost basis;
- consumable stores – on an average cost basis;
- finished goods and work-in-progress – at average, includes direct manufacturing costs plus other direct costs, and related direct overhead expenses; and
- merchandise – on the first-in, first-out basis.

Net realisable value is the estimated selling price in the ordinary course of business less any costs of disposal. Provision is made for slow moving goods and obsolete materials are written off.

TRADE RECEIVABLES

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the client accounts receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the income statement within 'other operating expenses'. Where a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against 'other operating expenses' in the income statement.

CASH AND CASH EQUIVALENTS

For the purpose of the cash flow statement, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

SHARE CAPITAL

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of taxation, from the proceeds.

BORROWINGS

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method. Preference shares, which are mandatorily redeemable, are classified as liabilities. The dividends on these preference shares are recognised in the income statement as an interest expense. Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date. Financial liabilities are derecognised when they are extinguished, that is when the obligation specified in the contract is discharged, cancelled or expires.

TAXATION

(a) Current taxation

Current taxation comprises taxation payable calculated on the basis of the expected taxable income for the year, using the taxation rates enacted, or substantially enacted, at the balance sheet date, and any adjustment of taxation payable for previous years.

(b) Deferred taxation

Deferred income taxation is provided in full, using the liability method, on temporary differences arising between the taxation bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income taxation is not accounted for if it arises from initial recognition of an asset or liability in a transaction other

than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income taxation is determined using taxation rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income taxation asset is realised or the deferred income taxation liability is settled. Deferred income taxation assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

(c) Secondary taxation on companies (STC)

Dividends declared by South African companies are subject to STC, but the STC liability is reduced by dividends received during the dividend cycle. Where the dividends received exceed dividends declared within a cycle, there is no liability to pay STC. The potential taxation benefit related to excess dividends received is carried forward to the next dividend cycle. Where dividends declared exceed the dividends received during a cycle, STC is payable at the current STC rate. The STC expense is included in the taxation charge in the income statement in the period that the dividend is paid. Deferred taxation assets are recognised on unutilised STC credits to the extent that it is probable that the company will declare future dividends to utilise such STC credits.

EMPLOYEE BENEFITS

(a) Retirement obligations

The group operates a number of defined contribution plans, the assets of which are generally held in separate trustee-administered funds. The plans are funded by payments from employees and by the relevant group companies, taking into account the recommendations of independent qualified actuaries. A defined contribution plan is a plan under which the group pays fixed contributions into a separate entity. The group has no legal or constructive obligation to pay further contributions if the funds do not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods. The group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses when they are due. The retirement plans are covered by the Pension Funds Act, 1956 (Act No. 24 of 1956).

(b) Performance bonus plans

The group recognises a liability and an expense for bonuses and profit-sharing, based on a formula that takes into consideration the profit attributable to the company's shareholders after certain adjustments. The group recognises a provision where contractually obliged to, or where there is a past practice that has created a constructive obligation.

(c) Short-term employee benefits

Employee entitlements to annual leave are recognised when it accrues to the employee. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to balance sheet date.

PROVISIONS

Provisions for restructuring costs and legal claims are recognised when the group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-taxation discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as an interest expense.

LEASED ASSETS

Leases of assets where the group assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the net present value of the minimum lease payments, or the fair value of the asset. The corresponding lease obligations, net of finance costs, are included in interest bearing borrowings. The interest costs are charged to the income statement over the lease period. The assets acquired under finance leases are depreciated over the same periods as the other property, plant and equipment.

Operating leases are those leases where substantially all the risks and rewards associated with ownership of an asset are not transferred from the lessor to the group as lessee. Costs of leasing property, plant and equipment held under operating leases are charged to the income statement on a straight-line basis over the period of the lease. The cost of the

assets and the outstanding commitments are not recorded in the balance sheet. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalties is recognised as an expense in the period in which the termination takes place.

REVENUE RECOGNITION

Revenue is recognised only when it is probable that the economic benefits associated with the transaction will flow to the group and the amount of revenue can be measured reliably. Revenue comprises the fair value of the consideration received or receivable for the sale of goods in the ordinary course of the group's activities. Revenue is shown net of value added taxation, and estimated settlement discounts. Consolidated revenue excludes inter-group transactions.

Revenues earned by the group are recognised on the following bases:

- Sales of goods – when a group entity has delivered the products to the customer, the customer has accepted the products, and collectability of the related receivables is reasonably assured;
- Interest income – on the time proportion basis using the effective interest method; and
- Dividend income – when the shareholder's right to receive payment is established.

DIVIDENDS

Dividend distributions to the company's shareholders are recognised as a liability in the group financial statements in the period in which the dividends are approved by the company's directors.

TRADE PAYABLES

Trade payables are recognised initially at fair value, and subsequently measured at amortised cost using the effective interest rate method

1. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Management made judgements, estimates and assumptions in the preparation of the financial statements that affect the disclosures and amounts of assets, liabilities, income, expenses and equity.

Estimates and judgements are continually evaluated, and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts and liabilities within the next financial year are discussed below.

(a) Estimated impairment of goodwill

The group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (note 3).

(b) Residual values and useful lives

The useful economic lives and residual values of items of property, plant and equipment and tangible assets are estimated annually. The actual lives and residual values may vary depending on a variety of factors.

(c) Estimated impairment of available-for-sale financial assets

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The group uses judgement to select the valuation method and make assumptions that are mainly based on the market conditions existing at each balance sheet date (note 5).

* *The values reported in the prior year were based on provisionally determined values. Subsequent to 31 December 2007, these values have been finalised (refer note 27)*

Goodwill, trade names and customer relationships are allocated to their respective underlying cash-generating units. For this purpose, the respective companies acquired are defined as the underlying cash-generating units.

Goodwill

The impairment test for goodwill identifies the recoverable amount of a cash-generating unit determined based on the higher of its value in use or fair value less costs to sell. Value in use calculations are prepared using cash flow projections based on financial budgets approved by management and cover a five-year period. The estimated growth rates applied are in line with that of the industry in which the companies operate and are materially similar to assumptions of external market sources. The cash-generating units' recoverable amount is most sensitive to the growth rate assumptions applied. Assumptions were based on management's past experience and best estimates regarding forecasts. Management determined budgeted gross margin based on past performance and its expectations of market developments. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. The discount rates used reflect the appropriate risk associated with the industry and respective business.

A summary of the key assumptions used for value in use calculations are as follows:

Growth rate[1]	6,5%
Discount rate[2]	15,8%

[1] *Weighted average growth rate used to extrapolate cash flows after the forecast period*

[2] *Weighted average cost of capital discount rate applied to the cash flow projections*

The fair value reflects the best estimate of the sum that an independent third party would pay (based on valuation techniques) to purchase the cash-generating unit as at the balance sheet date; selling costs are deducted. If available, market transactions or third party valuation of similar assets in the same sector are taken as a basis for determining the fair value.

Based on the value in use calculations an impairment of goodwill was determined at R39 million and the amount has been included in the operating expenses for the current year.

The creation and release of the provision for impaired receivables has been included in the operating expenses in the income statement. Amounts charged to the allowance account are generally written off when there is no expectation of recovering additional cash.

Trade receivables that are less than one month overdue are not considered to be impaired.

As at 31 December 2008, trade receivables of R124 702 000 (2007: R88 047 000) were fully performing.

	R'000	R'000	**R'000**	R'000
8. *TRADE AND OTHER RECEIVABLES (continued)*				
Trade receivables of R23 302 000 (2007: R38 545 000) were past due but not impaired. These related to customers for whom there is no recent history of default. The age analysis of these trade receivables is as follows:				
2 months	**13 302**	29 576	**–**	–
3 months	**6 552**	6 262	**–**	–
Over 3 months	**3 448**	2 707	**–**	–
	23 302	38 545	**–**	–
As at 31 December 2008 trade receivables of R27 044 000 (2007: R11 445 000) were impaired and provided for. The amount of the provision in respect of these trade receivables was R6 300 000 (2007: R5 145 000). It was assessed that a portion of these trade receivables were considered to be recoverable. The aging of these receivables is as follows:				
2 months	**15 406**	4 432	**–**	–
3 months	**9 118**	4 338	**–**	–
Over 3 months	**2 520**	2 675	**–**	–
	27 044	11 445	**–**	–

The carrying amounts of trade and other receivables are all denominated in South African Rands. The fair value of trade and other receivables is disclosed in note 24.

Trade receivables are insured with Credit Guarantee Insurance Corporation of South Africa Limited. South Ocean Electric Wire Company (Proprietary) Limited is exposed to a maximum credit risk of R400 000 for all trade receivables that are within their approved credit limits and 100% of the fair value of trade receivables that are in excess of their credit limits. Radiant Group (Proprietary) Limited is exposed to 15% of the fair value of trade accounts receivables within the credit limits and 100% of all the trade receivables that are in excess of their credit limits. The group does not hold any collateral as security.

Trade receivables have been ceded as security for banking facilities as stated in note 9.2 and note 11.

9.2 Banking facilities

The following securities are held by the group's bankers.

First National Bank, a division of FirstRand Bank Limited

The bank overdraft facility, currently R95 million, is secured by a cession of South Ocean Electric Wire Company (Proprietary) Limited's trade receivables, a standard debtors financing facility agreement, a cession of debtor cover policy over debtors with Credit Guarantee Insurance Corporation of Africa Limited as well as noting bank's interest and a deed of negative pledge of assets. The unused facility at year-end amounted to R84 million (2007: R95 million) (refer note 24).

Investec Bank Limited

The group has an overdraft facility of R20 million which is secured by the cession of Radiant Group (Proprietary) Limited trade and other receivables with a reversionary cession to Futuregrowth Asset Management (Proprietary) Limited acting on behalf of various lenders. The unused facility at year-end amounted to R1 million (2007: R20 million) (refer note 24).

Borrowing powers

The maximum permitted in terms of the company's Articles of Association is unlimited.

Securities

The interest bearing borrowings are secured as follows:

Instalment sale agreements

Secured over vehicles, plant and equipment (note 2), bear interest at prime minus 1,5%, and are repayable in monthly instalments of R753 543 (2007: R953 295), inclusive of interest.

Other loans

Futuregrowth Asset Management (Proprietary) Limited – Capital loan 1

The loan bears interest at a fixed rate of 13,85% (2007: 13,85%), and is repayable in fixed monthly instalments of R1 159 619 (2007: R1 159 619) inclusive of interest.

The loan is secured as follows:

- A reversionary cession on the debtors' book in favour of the Transnet Pension Fund; and
- General notarial bond over the assets of Radiant Group (Proprietary) Limited.

11. INTEREST BEARING BORROWINGS (continued)

Mortgage bonds

Futuregrowth Asset Management (Proprietary) Limited – Facility agreement loan

The loan is secured by:

- Irrevocable guarantee from South Ocean Holdings Limited;
- First ranking mortgage bond registered over all properties as disclosed in note 2; and
- Cession of rentals due from Radiant Group (Proprietary) Limited, and South Ocean Electric Wire Company (Proprietary) Limited.

The loan bears interest at JIBAR plus 1,80%. JIBAR is currently 11,425%. The loan is payable in monthly capital instalments totalling R1 435 000 (2007: R1 435 000) per month plus interest.

Bergvlei Industrial Leasing Corporation (Proprietary) Limited

The loan is secured by a mortgage bond over Stand 431 Wynberg Township, and limited guarantees issued by H Schwartz and L Sarakinsky. Interest is payable at the average overnight call rate from Investec Bank Limited and the Standard Bank of South Africa Limited. The capital balance is repayable over three years in monthly instalments of R153 000 (2007: R153 000).

	Group	
	2008	2007
	R'000	R'000
Cumulative redeemable preference shares		
Authorised		
20 000 000 cumulative redeemable preference shares of R0,01 each	**200**	200

The preference shares shall be redeemed as and when the amounts owing under the "Capital loan 1" together with interest thereon have been reduced to an amount equal to or less than the issue price of the issued preference share capital.

Dividends on the preference shares are payable at a rate of 70% of the prime interest rate, and can only be paid on the achievement of certain conditions, as detailed in the loan agreement with Futuregrowth Asset Management (Proprietary) Limited.

No preference dividend shall be declared and paid if the amount paid to shareholders in any year in respect of preference dividends exceeds the maximum entitlement.

The "maximum entitlement" refers to the lowest of:

- 50% of the net income of the consolidated group after tax (excluding depreciation of owner occupied properties and before amortisation of goodwill) for the immediately preceding financial year of the borrower;
- 50% of free cash flow for the immediately preceding financial year of the borrower; and
- 75% of the cash and cash equivalents at the end of the immediately preceding financial year of the borrower.

Dividends are paid annually and are therefore accrued as a liability.

The secondary taxation on companies related to the dividend is only accounted for when the dividend is declared, and not when accrued.

24. FINANCIAL RISK MANAGEMENT

Financial risk factors

The group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the group's financial performance. Risk management is carried out under policies approved by management.

(a) Market risk

Foreign exchange risk

The group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US Dollar. The group buys its major machinery and the majority of the light fittings and accessories in US Dollars. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities when they are denominated in a currency that is not the entity's functional currency. Entities within the group use forward exchange contracts to manage their foreign exchange risk arising from future commercial transactions, recognised assets and liabilities. In general, the group's policy is to enter into forward foreign exchange contracts as and when required by the businesses and these are limited to orders placed with suppliers.

At 31 December 2008, if the currency had weakened/strengthened against the US Dollar by 4% with all other variables held constant, profit after tax would have decreased/increased by R1 123 690 (2007: R985 000), mainly as a result of foreign exchange gains/losses on translation of trade payables. A sensitivity analysis has not been performed on other foreign currency exposures as it is not considered to have a material impact on the profit after tax.

Foreign currency exposure

The following foreign currency liabilities, recognised in the group balance sheet, are not covered by forward exchange contracts:

	2008		2007	
	Foreign currency	Rand equivalent R'000	Foreign currency	Rand equivalent R'000
Liabilities				
US Dollar ($'000)	**4 121**	**39 017**	2 135	21 032
British Pound (£'000)	**–**	**–**	33	310
European Euro (€'000)	**7**	**100**	86	871
Canadian Dollar (CAD'000)	**–**	**–**	42	290
		39 117		22 503

At year-end the group had entered into the following forward exchange contracts:

	Settlement dates	Foreign currency $'000	Rand equivalent R'000
2008			
	7 January 2009	**457**	**4 425**
	14 January 2009	**403**	**3 806**
2007	8 January 2008	470	3 224
	14 January 2008	514	3 535
	18 January 2008	443	3 008
	25 January 2008	568	3 843
	7 February 2008	137	931

24. FINANCIAL RISK MANAGEMENT (continued)

Financial risk factors (continued)

(a) Market risk (continued)

Price risk

The group is exposed to commodity price risk with regard to the price of copper. Copper price risk arises from the risk of an adverse effect on current or future earnings resulting from fluctuations in the price of copper. The copper market is predominantly priced in US Dollars which exposes the group to the risk that fluctuations in the South African Rand/US Dollar exchange rates may also have on current or future earnings. The group is not exposed to equity securities price risk.

Cash flow and fair value interest rate risk

As the group has no significant interest bearing assets, the group's income is substantially independent of changes in market interest rates. The group's interest rate risk arises from long-term borrowings. Borrowings issued at fixed rates expose the group to fair value interest rate risk. Borrowings issued at variable rates expose the group to cash flow interest rate risk. The interest rates are monitored on a daily basis and any additional or available cash resources are redirected towards reducing the interest bearing debts.

All group borrowings are denominated in South African Rands. The group has no specific processes in place to manage cash flow risks. Interest rate exposure is not analysed on a specific basis but should the interest rates increase/decrease by 2% the profit after tax will decrease/increase by R3 181 000 (2007: R1 594 000).

(b) Credit risk

Potential concentrations of credit risk consist primarily of interest free loans receivable, cash investments and trade receivables. Trade receivables consist of a large number of customers spread across diverse industries and geographical areas. The group has policies in place to ensure that sales are made to customers with an appropriate credit history and in most instances, utilises credit insurance. The ongoing creditworthiness of the trade receivables is assessed from time to time. The group limits its exposure arising from the money market by dealing with well established financial institutions of high standing. The table below shows the credit limit and balances of the major counterparties at the balance sheet date:

	Group			
	2008		2007	
Counterparty	**Credit limit R'000**	**Balance R'000**	Credit limit R'000	Balance R'000
First National Bank, a division of FirstRand Bank Limited	**95 000**	**(11 139)**	95 000	(69)
Investec Bank Limited	**20 000**	**(19 245)**	20 000	–
Futuregrowth Asset Management (Proprietary) Limited	**50 000**	**(33 000)**	50 000	–

(c) Liquidity risk

The group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate unutilised borrowing facilities are maintained. Due to the dynamic nature of the underlying businesses, the group aims to maintain flexibility in funding by keeping committed credit lines available (refer note 11 and 13).

24. FINANCIAL RISK MANAGEMENT (continued)

Financial risk factors (continued)

(d) Capital risk management

The group's objectives when managing capital are to safeguard the group's ability to continue as a going concern in order to provide for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The executive directors are involved in the daily operations of the group, and the necessary decisions regarding capital risk management are made as and when necessary.

Fair value estimation

The carrying value less impairment provision of trade receivables and payables and interest free loans receivable are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the group for similar financial instruments.

	Group		Company

25. RELATED PARTY TRANSACTIONS

Transactions between group companies

In the ordinary course of business, the group entered into transactions with other group companies. These intergroup transactions have been eliminated on consolidation. The following transactions were entered into between the company and its subsidiaries during the year.

	Company	
	2008 R'000	2007 R'000
Dividends received	**42 222**	9 383
Management fees received	**4 800**	1 800

Amounts owing by/(to) related parties

Amounts owing by/(to) related parties are included in trade and other receivables (note 8), trade and other payables (note 13) and interest in subsidiaries (note 28).

Directors

Details relating to directors' remuneration and interests are disclosed in note 16 of the financial statements, and on page 37 of the directors' report.

The directors have certified that they are not materially interested in any transactions of any significance with the company or any of its subsidiaries.

	Group		Company

The expenditure will be financed from new credit facilities from Wesbank and First National Bank, divisions of FirstRand Bank Limited and Futuregrowth Asset Management (Proprietary) Limited.

27. BUSINESS COMBINATIONS

South Ocean Electric Wire Company (Proprietary) Limited

On 1 February 2007, South Ocean Holdings Limited, a newly incorporated company, acquired 100% of the issued shares in South Ocean Electric Wire Company (Proprietary) Limited by way of a share-for-share swap.

The shareholders of South Ocean Electric Wire Company (Proprietary) Limited swapped 7 099 635 shares valued at R100,31 per share for 100 000 000 shares in South Ocean Holdings Limited at a value of R7,12 per share. The proportion of the share swap was 14,085 South Ocean Holdings Limited shares for 1 share in South Ocean Electric Wire Company (Proprietary) Limited. South Ocean Electric Wire Company (Proprietary) Limited is an entity which manufactures and distributes electric wire.

Radiant Group (Proprietary) Limited

On 7 August 2007, South Ocean Holdings acquired 100% of the issued shares in Radiant Group (Proprietary) Limited, an entity which imports and distributes lighting products, namely light fittings, lamps and bulbs and electrical products.

The consideration payable of R485 000 000 was settled by way of an issue of 24 691 781 South Ocean Holdings Limited shares for R180 250 000, which was calculated based on the volume weighted average price (VWAP) from date of listing to 2 May 2007, and a cash payment of R304 750 000.

The results of Radiant Group (Proprietary) Limited for the five months was consolidated in the prior year financial statements. The acquired business contributed revenues of R178 785 057 and operating profit of R45 230 529 to the year ended 31 December 2007, and its assets and liabilities at 31 December 2007 were R208 202 458 and R51 818 505 respectively.

The fair values of the assets, liabilities and intangible assets have been determined by management.

Details of net assets acquired and goodwill are as follows:*

	R'000
Purchase consideration	485 000
Add: Direct costs related to the acquisition	3 038
	488 038
Fair value of net assets acquired	(125 930)
Remaining goodwill	362 108

* *The fair values of assets acquired were disclosed as provisional at 31 December 2007*

27. BUSINESS COMBINATIONS (continued)

The final assets and liabilities arising from the acquisition are as follows:

	Fair value R'000	Carrying value R'000
Property, plant and equipment	98 302	55 852
Trade names (included in intangible assets note 3)	10 074	–
Customer relationships (included in intangible assets note 3)	14 347	–

29. SEGMENTAL REPORTING

The group is organised into three main business segments:
1. Manufacture and distribution of electrical wire;
2. Import and sale of light fittings, lamps and electrical accessories; and
3. Property investment.

Other group operations comprise head office.

	Revenue R'000	Segment results R'000	Total assets R'000	Total liabilities R'000	Software and capital expenditure R'000	Depreciation and amortisation R'000

29.2 Primary basis – business segments

Segment results include gains and losses from foreign currency derivatives that have been revalued to the fair value at year-end.

Segment assets consist primarily of property, plant and equipment, intangible assets, inventories, receivables and operating cash.

Segment liabilities comprise operating liabilities, and exclude current and deferred taxation.

Capital expenditure comprises additions to property, plant and equipment (note 2) and intangible assets (note 3).

	Group

Notice of Annual General Meeting

South Ocean Holdings Limited

Incorporated in the Republic of South Africa
(Registration number: 2007/002381/06)
Share code: SOH ISIN: ZAE000092748

If you are in any doubt as to what action you should take in respect of the following resolutions, please consult your Central Securities Depository Participant (CSDP), broker, banker, attorney, accountant or other professional adviser immediately.

Notice is hereby given that the annual general meeting of members of South Ocean Holdings Limited (the company) will be held in the boardroom, 12 Botha Street, Alrode on 22 June 2009 at 11h00 for the following purposes:

ORDINARY RESOLUTION NUMBER 1

To receive and consider the annual financial statements of the company and of the group together with the directors' report and the report of the independent auditors for the financial year ended 31 December 2008.

ORDINARY RESOLUTION NUMBER 2

To re-elect Mr PJM Ferreira as a director of the company and who retires in terms of the company's Articles of Association.

ORDINARY RESOLUTION NUMBER 3

To re-elect Mr H Schwartz as a director of the company and who retires in terms of the company's Articles of Association.

ORDINARY RESOLUTION NUMBER 4

To re-elect Mr G Stein as a director of the company and who retires in terms of the company's Articles of Association.

ORDINARY RESOLUTION NUMBER 5

To re-elect Ms JL Law as a director of the company and who retires in terms of the company's Articles of Association, but being eligible offers herself for re-election. An abbreviated curriculum vitae for Ms JL Law is contained on page 13 of this annual report.

ORDINARY RESOLUTION NUMBER 6

To approve the fees of the non-executive directors for their services as directors in the amount of R1 251 000 for the financial year ended 31 December 2008 and as more fully disclosed in note 16 of the annual financial statements.

ORDINARY RESOLUTION NUMBER 7

To re-appoint PricewaterhouseCoopers Inc. as independent auditors to the company for the current financial year and to note that the individual registered auditor who will undertake the audit during the financial year ending 31 December 2009 is Ms P Pope.

SPECIAL RESOLUTION NUMBER 1

Resolved that Article number 19.9 be deleted in its entirety and that the following new Article number 19.9 be substituted in its place;

"A director who has reached the age of 70 years shall not be subject to retirement in terms of this Article number 19 but shall, at the discretion of the directors, be re-elected as a director for further periods of one year and until the date of the next annual general meeting of the company".

The reason for Special resolution number 1 is to allow directors, who have reached the age of 70, to be re-elected as directors, at the discretion of the directors. The effect of Special resolution number 1 is to delete Article number 19.9 and to adopt new Article number 19.9.

SPECIAL RESOLUTION NUMBER 2

Resolved that the company or any of its subsidiaries be and is hereby authorised, by way of a general approval, to acquire ordinary shares issued by the company, in terms of Sections 85 (2) and 85 (3) of the Companies Act (Act 61 of 1973), as amended (the Companies Act) and in accordance with Article 10.1.7 of the company's Articles of Association and in terms of the JSE Listing Requirements, provided that:

- any such acquisition of ordinary shares shall be effected through the order book operated by the JSE trading system and done without any prior understanding or arrangement between the company and the counterparty;
- this general authority shall be valid until the company's next annual general meeting, provided that it shall not extend beyond 15 (fifteen) months from the date of passing of this special resolution number 2;
- an announcement prepared in accordance with paragraph 11.27 of the JSE Listings Requirements will be published as soon as the company or any of its subsidiaries has acquired ordinary shares constituting, on a cumulative basis, 3% of the number of ordinary shares in issue prior to the acquisition pursuant to which the aforesaid 3% threshold is reached and for each 3% in aggregate acquired thereafter, containing full details of such acquisitions;
- acquisitions of shares in aggregate in any one financial year may not exceed 20% of the company's ordinary issued share capital as at the date of passing of this special resolution number 2;
- in determining the price at which ordinary shares issued by the company are acquired by it or any of its subsidiaries in terms of this general authority, the maximum premium at which such ordinary shares may be acquired will be 10% of the weighted average of the market value at which such ordinary shares are traded on the JSE as determined over the five trading days immediately preceding the date of repurchase of such ordinary shares by the company or any of its subsidiaries;
- the company has been given authority by its Articles of Association;
- at any point in time, the company may only appoint one agent to effect any repurchase on the company's behalf;
- the company's sponsor must confirm in terms of paragraph 11.26 (d) of the JSE Listings Requirements, the adequacy of the company's working capital for purposes of undertaking the repurchase of shares in writing to the JSE before entering the market to proceed with the repurchase;
- the company remaining in compliance with the minimum shareholder spread requirements of the JSE Listings Requirements;
- the company and/or its subsidiaries not repurchasing any shares during a prohibited period as defined in paragraph 3.67 of the JSE Listings Requirements, unless a repurchase programme is in place, where dates and quantities of shares to be traded during the prohibited period are fixed and full details of the programme have been disclosed in an announcement over the Securities Exchange News Services (SENS) prior to the commencement of the prohibited period;
- before entering the market to effect the general repurchase, the directors, having considered the effects of the repurchase of the maximum number of ordinary shares in terms of the aforegoing general authority, will ensure that for a period 12 (twelve) months after the date of the repurchase in question:
  - the company and the group will be able, in the ordinary course of business, to pay its debts;
  - the consolidated assets of the company and the group, fairly valued in accordance with International Financial Reporting Standards on a basis consistent with the financial year ended 31 December 2008 will exceed the consolidated liabilities of the company and the group; and
  - the company and the group's ordinary share capital, reserves and working capital will be adequate for ordinary business purposes.

The reason for and effect of Special resolution 2 is to grant the directors of the company a general authority in terms of the Companies Act and the JSE Listings Requirements for the repurchase by the company, or a subsidiary of the company, of the company's shares.

The following additional disclosures required in terms of paragraph 11.26 of the JSE Listings Requirements (some of which appear elsewhere in the annual report of which this notice forms part) are provided below:

- Directors – page 36;
- Major shareholders – page 77
- Directors' interests in ordinary shares – page 37 and
- Share capital of the company – page 58

Litigation statement

The directors, whose names appear on page 36 of the annual report of which this notice forms part, are not aware of any legal or arbitration proceedings that are pending or threatened, that may have or have had in the recent past, being at least the previous 12 (twelve) months, a material effect on the company's or group's financial position.

Directors' responsibility statement

The directors, whose names appear on page 36 of the annual report, collectively and individually accept full responsibility for the accuracy of the information pertaining to this special resolution and certify that, to the best of their knowledge and belief, there are no facts that have been omitted which would make any statement false or misleading and that all reasonable enquiries to ascertain such facts have been made and that the special resolution contains all such information.

Material changes

Other than the facts and developments reported on in the annual report, there have been no material changes in the affairs or financial position of the company and its subsidiaries since the date of signature of the audit report and up to the date of this notice.

The directors have no specific intention, at present, for the company to repurchase any of its shares but consider that such a general authority should be put in place should an opportunity present itself to do so during the year which is in the best interests of the company and its shareholders.

Working capital statement

In terms of Schedule 25.4(a) and paragraph 11.27(f) of the JSE Listings Requirements, the sponsor will issue a letter pertaining to the adequacy of the working capital of the company, to the JSE, immediately prior to the company entering the market to commence any share repurchase in terms of this general authority.

ORDINARY RESOLUTION NUMBER 8

Resolved that any director of the company, or the Company Secretary, be and is hereby authorised and empowered to sign all such documents and do whatever else may be necessary to give effect to the registration of Special resolutions number 1 and 2 above.

PROXIES

Any member entitled to attend and vote at the annual general meeting of the company may appoint a proxy to attend, speak and vote in his stead. The proxy need not be a member of the company. A proxy form is included in the back of this annual report. Completed proxy forms must be returned to the company's transfer secretaries, Computershare Investor Services (Proprietary) Limited, Ground floor, 70 Marshall Street, Johannesburg, 2001 (PO Box 61051, Marshalltown, 2107).

Certificated shareholders and "own name" dematerialised shareholders who are unable to attend the annual general meeting to be held at 11:00 on Monday, 22 June 2009, but wish to be represented thereat, must complete and return the attached form of proxy in accordance with the instructions therein and lodge it with the transfer secretaries so as to be received by no later than 11:00 on Friday, 19 June 2009.

Dematerialised shareholders without "own name" registration who wish to vote by way of proxy at the annual general meeting, must provide their CSDP or broker with their voting instructions by the cut-off-time and date advised by the CSDP or broker for instructions of this nature, as specified in the custody agreement entered into between such shareholder and their CSDP or broker, in order for such CSDP or broker to vote in accordance with such instructions at the annual general meeting.

Dematerialised shareholders other than those with "own name" registration who wish to attend the annual general meeting must timeously advise their CSDP or broker of such, in order to obtain the necessary letter of authority to enable them to attend. This must be effected in terms of the agreement entered into between such shareholder and their CSDP or broker.

By order of the board of directors

(Indicate instruction to proxy by way of a cross in space provided above).
Unless otherwise instructed, my/our proxy may vote as he/she thinks fit.

Signed this day of 2009

Signature Assisted by me (where applicable)

Notes to Form of Proxy

1. A shareholder may insert the name of a proxy or the names of two alternative proxies of the shareholders choice in the space(s) provided, with or without deleting "the Chairperson of the annual general meeting". The person whose name appears first on the form of proxy and whose name has not been deleted will be entitled to act as proxy to the exclusion of those whose names follow.

2. A shareholder's instructions to the proxy must be indicated by the insertion of the relevant number of votes exercisable by that shareholder in the appropriate space provided in the manner in which that shareholder wishes to vote. Failure to comply herewith will be deemed to authorise the proxy to vote at the annual general meeting as he/she deems fit in respect of the shareholder's votes exercisable thereat, but where the proxy is the Chairperson, failure to so comply will be deemed to authorise the Chairperson to vote in favour of the resolutions. A shareholder or his/her proxy is not obliged to use all the votes exercisable by the shareholder or by the proxy.

3. Forms of proxy must be lodged at or posted to the company's transfer secretaries, Computershare Investor Services (Proprietary) Limited, Ground Floor, 70 Marshall Street, Johannesburg, 2001, (PO Box 61051, Marshalltown, 2107) to be received by not later than 11:00 on Friday, 19 June 2009.

4. The completion and lodging of this form of proxy will not preclude the relevant shareholder from attending the annual general meeting and speaking and voting in person thereat to the exclusion of any proxy appointed in terms hereof, should such shareholder wish to do so.

5. Each shareholder is entitled to appoint one or more proxies (none of whom needs to be a shareholder of the company) to attend, speak and vote in his/her stead at the annual general meeting.

6. Documentary evidence establishing the authority of a person signing this form of proxy must be attached to this form of proxy unless previously recorded by the transfer secretaries of the company or waived by the Chairperson of the meeting.

7. The form of proxy shall be valid for any adjournment of the annual general meeting as well as for the meeting to which it relates, unless the contrary is stated therein.

8. A vote cast or act done in accordance with the terms of a form of proxy shall be deemed to be valid notwithstanding:
   - the death, insanity, or any other legal disability of the person appointing the proxy, or
   - the revocation of the proxy; or
   - the transfer of a share in respect of which the proxy was given,

   unless notice as to any of the abovementioned matter shall have been received by the company at its registered office or by the Chairperson of the annual general meeting at the place of the annual general meeting if not held at the registered office, before the commencement or resumption (if adjourned) of the annual general meeting at which the vote was cast or the act was done or before the poll on which the vote was cast.

9. The authority of a person signing this form of proxy:

   9.1 under a power of attorney; or
   9.2 on behalf of a company,

   must be attached to the form of proxy unless the full power of attorney has already been received by the transfer secretaries.

10. Where shares are held jointly, all joint holders must sign.

11. The Chairperson of the annual general meeting may accept or reject any form of proxy which is completed and/or received other than in accordance with these notes and instructions provided that he is satisfied as to the manner in which the shareholder wishes to vote.
